COVID-19 Statement: This report includes employment projection data by EMSI. EMSI’s projections are modeled on recorded (historical) employment figures and incorporate several underlying assumptions, including the assumption that the economy during the projection period will be at approximately full employment or potential output. To the extent that a recession or labor shock, such as the economic effects of COVID-19, can cause long-term structural change, they may impact the projections. At this time, it is not possible to quantify the impact of COVID-19 on projections of industry and occupational employment. Other measures such as unemployment rates and monthly industry employment estimates will reflect the most recent information on employment and jobs in the state and, in combination with input from local employers, may help validate current and future employment needs as depicted here.

If for any reason this document is not accessible or if you have specific needs for readability, please contact us and we will do our utmost to accommodate you with a modified version. To make a request, contact Nora Seronello by phone at (209) 575-6894 or by email seronellon@mjc.edu.

Summary

Please note the COVID-19 statement on page 2 when considering this report's findings.

This study conducted by the Central Valley/Mother Lode Center of Excellence examines labor market demand, wages, skills, and postsecondary supply for firefighters. Four occupations related to firefighters were identified for Cerro Coso Community College: 33-2011, Firefighters; 33-1021, First-Line Supervisors of Firefighting and Prevention Workers; 33-2021, Fire Inspectors and Investigators; and 33-2022, Forest Fire Inspectors and Prevention Specialists.

Key findings:

- **Occupational demand** — Nearly 2,600 workers were employed in jobs related to firefighters in 2019 in the South Central Valley/Southern Mother Lode (SCV/SML) subregion. The largest occupation is firefighters with 2,172 workers in 2019, a projected growth rate of 5% over the next five years, and 174 annual openings.
- **Wages** — Fire inspectors and investigators earn the highest entry-level wage, \$41.73/hour in the subregion and \$38.98/hour in the region.
- **Employers** — Employers with the most job postings in the subregion are Commander, State of California, and Forest Service.
- **Occupational titles** — The most common occupational title in job postings in the subregion is municipal firefighters. The most common job title is QC patrolman.
- **Skills and certifications** — The top baseline skill is organizational skills, the top specialized skill is CPR, and the top software skill is Microsoft Office. The most in-demand certification is a driver's license.
- **Education** — A postsecondary nondegree award is the typical entry-level education required for three of the four occupations. A high school diploma or equivalent is typically required for forest fire inspectors and prevention specialists.
- **Supply** — Analysis of postsecondary completions in the region shows that on average 172 awards were conferred in the Central Valley/Mother Lode region each year.

Based on a comparison of occupational demand and supply, there is an undersupply of 112 trained workers in the subregion and 210 workers in the region. The Center of Excellence recommends that Cerro Coso Community College work with the college's advisory board, and local industry in the expansion of programs to address the shortage of firefighters workers in the region.

Introduction

The Central Valley/Mother Lode Center of Excellence was asked by Cerro Coso Community College to provide labor market information for firefighters. The geographical focus for this report is the South Central Valley/Southern Mother Lode (SCV/SML) subregion, but regional demand and supply data has been included for broader applicability and use. The average living wage for a single adult in the South Central Valley/Southern Mother Lode (SCV/SML) subregion is \$10.30/hour.¹ Analysis of the program and occupational data related to firefighters resulted in the identification of applicable occupations. The Standard Occupational Classification (SOC) System codes and titles used in this report are:

- 33-2011, Firefighters
- 33-1021, First-Line Supervisors of Firefighting and Prevention Workers
- 33-2021, Fire Inspectors and Investigators
- 33-2022, Forest Fire Inspectors and Prevention Specialists

The occupational titles, job descriptions, sample job titles, and knowledge and skills from the Bureau of Labor Statistics and O*NET OnLine are shown below.

Firefighters

Job Description: Control and extinguish fires or respond to emergency situations where life, property, or the environment is at risk. Duties may include fire prevention, emergency medical service, hazardous material response, search and rescue, and disaster assistance.

Knowledge: Public Safety and Security, Building and Construction, Customer and Personal Service, Education and Training, Mechanical

Skills: Active Listening, Monitoring, Coordination, Operation Monitoring, Critical Thinking

First-Line Supervisors of Firefighting and Prevention Workers

Job Description: Directly supervise and coordinate activities of workers engaged in firefighting and fire prevention and control.

Knowledge: Public Safety and Security, Customer and Personal Service, Administration and Management, English Language, Education and Training

Skills: Critical Thinking, Monitoring, Speaking, Active Listening, Complex Problem Solving

Fire Inspectors and Investigators

Job Description: Inspect buildings to detect fire hazards and enforce local ordinances and state laws, or investigate and gather facts to determine cause of fires and explosions.

Knowledge: Public Safety and Security, Building and Construction, Customer and Personal Service, Law and Government, Education and Training

Skills: Active Listening, Critical Thinking, Speaking, Judgement and Decision Making, Complex Problem Solving

Forest Fire Inspectors and Prevention Specialists

Job Description: Enforce fire regulations, inspect forest for fire hazards, and recommend forest fire prevention or control measures. May report forest fires and weather conditions.

Knowledge: Administration and Management, Customer and Personal Service, Education and Training, Personnel and Human Resources, Public Safety and Security

Skills: Critical Thinking, Coordination, Speaking, Active Listening, Judgement and Decision Making

¹ The term "living wage" in Center of Excellence reports is calculated by averaging the self-sufficiency wages from the Insight Center's California Family Needs Calculator for each county in the subregion: <https://insightccd.org/tools-metrics/self-sufficiency-standard-tool-for-california/>.

Occupational Demand

The South Central Valley/Southern Mother Lode subregion employed 2,590 workers in firefighters occupations in 2019 (Exhibit 1). The largest occupation is firefighters with 2,172 workers in 2019. This occupation is projected to grow by 5% over the next five years and has the greatest number of projected annual openings, 174.

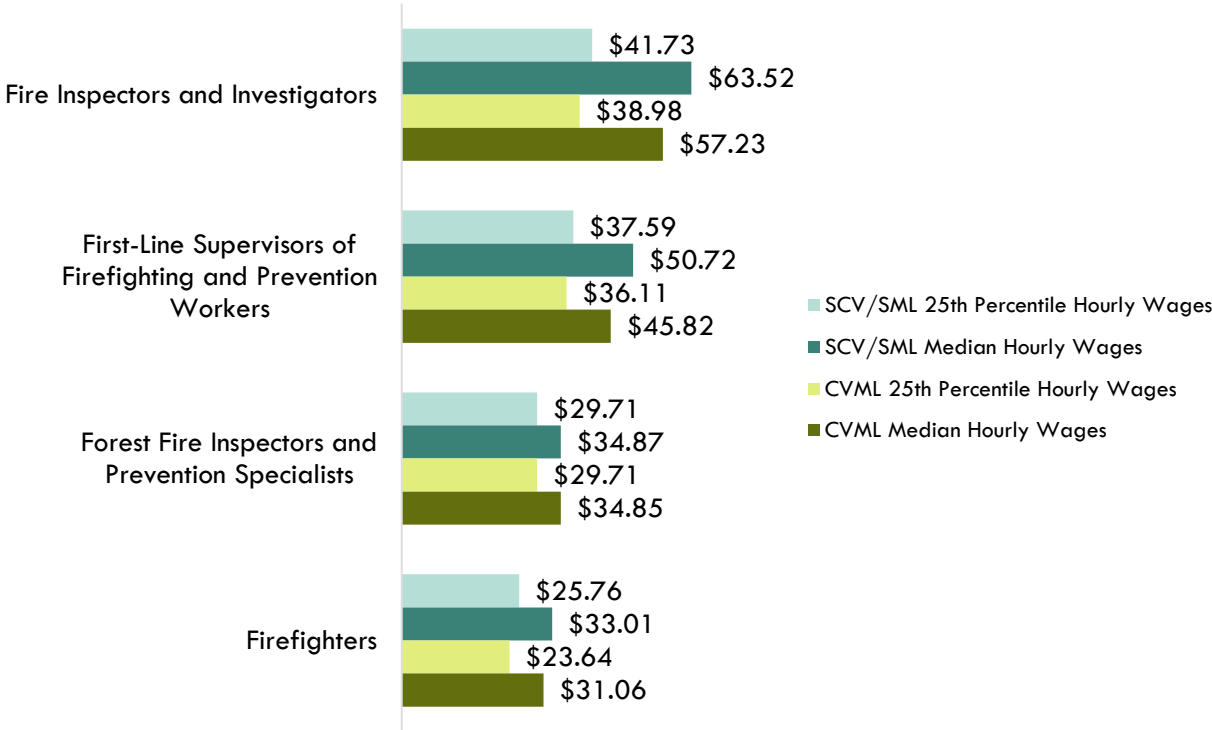

Exhibit 1. firefighters employment and occupational projections in the SCV/SML subregion

Occupation	2019 Jobs	2024 Jobs	5-Year Change	5-Year % Change	Annual Openings
Firefighters	2,172	2,284	111	5%	174
First-Line Supervisors of Firefighting and Prevention Workers	258	277	19	7%	21
Fire Inspectors and Investigators	147	154	7	5%	15
Forest Fire Inspectors and Prevention Specialists	12	15	2	20%	2
TOTAL	2,590	2,730	140	5%	212

Wages

Exhibit 2 compares the entry-level and experienced wages of the firefighters occupations. Fire inspectors and investigators earn the highest entry-level wage, \$41.73/hour in the subregion and \$38.98/hour in the region.

Exhibit 2. Entry-level and experienced wage comparison in the SCV/SML subregion and region

Job Postings

There were 62 job postings for the four occupations in the SCV/SML subregion from June to November 2020.² The employers with the most job postings are listed in Exhibit 3.

Exhibit 3. Top employers of firefighters by number of job postings

Employer	Job Postings	% Job Postings
Commander	5	9%
State of California	5	9%
Forest Service	4	7%
Acrt Incorporated	3	5%
Acrt Pacific, Llc	3	5%
City Visalia	3	5%
County Kern	3	5%
Kern County	3	5%
City Fresno	2	4%
Davey Tree Expert Company	2	4%

Exhibit 4 shows how job postings for the targeted occupations in the SCV/SML subregion are distributed across three O*NET OnLine occupations. The occupational title municipal firefighters is listed in 23 job postings. Common job titles in postings include QC patrolman in seven job postings, firefighter in six job postings, and firefighter-lateral in four job postings.

Exhibit 4. Top occupational titles in job postings for firefighters

Occupational Title	Job Postings	% of Job Postings
Municipal Firefighters	23	37%
Forest Fire Inspectors and Prevention Specialists	10	16%
Municipal Fire Fighting and Prevention Supervisors	10	16%

Salaries

Exhibit 5 shows the “Market Salaries” for firefighters that are calculated by Burning Glass which uses a machine learning model built off of millions of job postings every year, and accounts for adjustments based on locations, industry, skills, experience, education requirements, among other variables.

Exhibit 5. Salaries for firefighters

Market Salary Percentile	Salary Amount
10th Percentile	\$31,090
25th Percentile	\$33,466
50th Percentile	\$45,172
75th Percentile	\$66,632
90th Percentile	\$87,762

² Other than occupation titles and job titles, the categories below can be counted one or multiple times per job posting, and across several areas in a single posting. For example, a skill can be counted in two different skill types, and an employer can indicate more than one education level.

Education

Of the 62 job postings, 35 listed an education level preferred for the positions being filled. Of those, 54% requested high school or vocational training, 34% requested a bachelor’s degree, and 4% requested an associate degree (Exhibit 6). A job posting can indicate more than one education level. Hence, the percentages shown in the chart below total more than 100%.

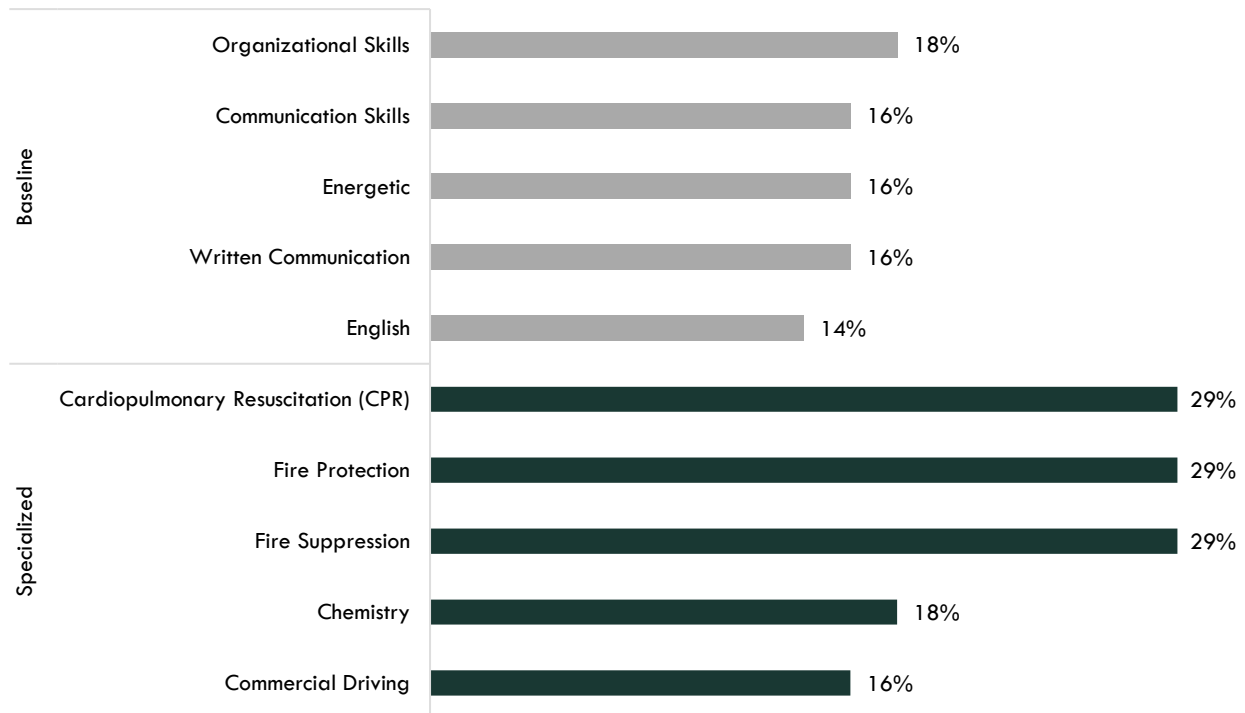

Exhibit 6. Education levels requested in job postings for firefighters

Education level	Job Postings	% of Job Postings
High school or vocational training	19	54%
Bachelor's degree	12	34%
Associate degree	9	26%
Doctoral degree	4	11%
Master's degree	3	9%

Baseline and Specialized Skills

Exhibit 7 depicts the top baseline and specialized skills for the targeted occupations. The three most important baseline skills are organizational skills, 18% of job postings, communication, 16%, and energetic, 16%. The top three specialized skills are CPR, 29% of job postings, fire protection, 29%, and fire suppression, 29%.

Exhibit 7. In-demand baseline and specialized skills for firefighters

Software Skills

Analysis also included the software skills most in demand by employers. Microsoft Office and Word were the top two software skills identified in job postings (Exhibit 8).

Exhibit 8. In-demand software skills for firefighters

Certifications

Of the 62 job postings, 46 contained certification data. Among those, 76% indicated a need for a driver's license. The next top certifications are Fire Fighter I and Emergency Medical Technician (Exhibit 9). (Due to the low number of job postings with certifications listed, the chart below may not be representative of the full sample.)

Exhibit 9. Top firefighter certifications requested in job postings

Education, Work Experience & Training

A postsecondary nondegree award is the typical entry-level education required for three of the four occupations (Exhibit 10). A high school diploma or equivalent is typically required for forest fire inspectors and prevention specialists.

Exhibit 10. Education, work experience, training, and Current Population Survey results for firefighters occupations³

Occupation	Typical Entry-level Education	Work Experience Required	Typical On-The-Job Training	CPS
Firefighters	Postsecondary nondegree award	None	Long-term	60.7%
First-Line Supervisors of Firefighting and Prevention Workers	Postsecondary nondegree award	Less than 5 years	Moderate-term	56.8%
Fire Inspectors and Investigators	Postsecondary nondegree award	5 years or more	Moderate-term	58.4%
Forest Fire Inspectors and Prevention Specialists	High school diploma or equivalent	Less than 5 years	Moderate-term	58.4%

³ "Labor Force Statistics from the Current Population Survey," Bureau of Labor Statistics, <https://www.bls.gov/cps/>.

Supply

Analysis of program data from the California Community Colleges Chancellor’s Office Data Mart included the TOP codes: 011400 - Forestry/Technical Firefighting Emphasis, 213300 - Fire Technology, and 213310 - Wildland Fire Technology. Analysis of the last three years of data shows that, on average, 172 awards were conferred in the Central Valley/Mother Lode region each year (Exhibit 11).

Exhibit 11. Postsecondary supply for firefighter occupations in the region

TOP Code-Title	College	Associate Degree	Certificate 18<30 semester units	Certificate 30<60 semester units	Certificate 6<18 semester units	Subtotal
011400 - Forestry/Technical Firefighting Emphasis	Reedley College		11			11
	Bakersfield	23		14		37
	Columbia	12	26			38
	Fresno City	6				6
213300 - Fire Technology	Merced	7		2		9
	Modesto	18		6		24
	Porterville			4		4
	San Joaquin Delta	0				0
	Sequoias	9		1		9
	213310 - Wildland Fire Technology	Bakersfield	3			0
	Porterville				30	30
TOTAL		78	37	26	30	172

There is an undersupply of 112 firefighters workers in the SCV/SML subregion and 210 workers in the region (Exhibit 12).

Exhibit 12. Firefighter workforce annual demand and supply in the SCV/SML subregion and region

Student Outcomes

Exhibit 13 summarizes employment and wage outcomes from the California Community College Chancellor’s Cal-PASS Plus LaunchBoard for the TOP codes related to firefighters. There were 211 fire technology students who received a degree, certificate, or attained apprenticeship journey status, and 46 transferred. A higher percentage of fire technology students reported attaining a job closely related to their field of study and a living wage. A higher percentage of wildland fire technology students reported attaining a median change in earnings.

Exhibit 13. Regional metrics for the TOP code related to firefighters

Metric	Fire Technology 213300	Wildland Fire Technology 103000
Students Who Got a Degree or Certificate or Attained Apprenticeship Journey Status	211	*
Number of Students Who Transferred	46	*
Job Closely Related to Field of Study	82%	80%
Median Change in Earnings	26%	38%
Attained a Living Wage	78%	68%
* denotes data not available.		

Conclusion

The entry-level wages of the four occupations exceed the SCV/SML subregion's average living wage. There were 62 job postings in the past six months for occupations related to firefighters in the subregion. Analysis of skills and certification requirements in job postings indicates:

- The top baseline skill is organizational skills, and the top specialized skill is CPR.
- The top software skill is Microsoft Office.
- The top certification is a driver's license.

There is an undersupply of trained workers, a shortage of 112 in the SCV/SML subregion and 210 in the region.

Recommendation

Based on these findings, it is recommended that Cerro Coso Community College work with the college's advisory board, and local industry in the expansion of programs to address the shortage of firefighters in the region.

Appendix A: Methodology & Data Sources

Data Sources

Labor market and educational supply data compiled in this report derive from a variety of sources. Data were drawn from external sources, including the Economic Modeling Specialists, Inc., the California Community Colleges Chancellor’s Office Management Information Systems Data Mart and the National Center for Educational Statistics (NCES) Integrated Postsecondary Education Data System (IPEDS). Below is the summary of the data sources found in this study.

Data Type	Source
Labor Market Information/Population Estimates and Projections/Educational Attainment	Economic Modeling Specialists, Intl. (EMSI). EMSI occupational employment data are based on final EMSI industry data and final EMSI staffing patterns. Wage estimates are based on Occupational Employment Statistics (QCEW and Non-QCEW Employees classes of worker) and the American Community Survey (Self-Employed and Extended Proprietors). Occupational wage estimates also affected by county-level EMSI earnings by industry: economicmodeling.com.
Typical Education Level and On-the-job Training	Bureau of Labor Statistics (BLS) uses a system to assign categories for entry-level education and typical on-the-job training to each occupation for which BLS publishes projections data: https://www.bls.gov/emp/tables/educational-attainment.htm .
Labor Force, Employment and Unemployment Estimates	California Employment Development Department, Labor Market Information Division: labormarketinfo.edd.ca.gov .
Job Posting and Skills Data	Burning Glass: burning-glass.com/ .
Additional Education Requirements/ Employer Preferences	The O*NET Job Zone database includes over 900 occupations as well as information on skills, abilities, knowledge, work activities and interests associated with specific occupations: onetonline.org .

Key Terms and Concepts

Annual Job Openings: Annual openings are calculated by dividing the number of years in the projection period by total job openings.

Education Attainment Level: The highest education attainment level of workers age 25 years or older.

Employment Estimate: The total number of workers currently employed.

Employment Projections: Projections of employment are calculated by a proprietary Economic Modeling Specialists, Intl. (EMSI) formula that includes historical employment and economic indicators along with national, state and local trends.

Living Wage: The cost of living in a specific community or region for one adult and no children. The cost increases with the addition of children.

Occupation: An occupation is a grouping of job titles that have a similar set of activities or tasks that employees perform.

Percent Change: Rate of growth or decline in the occupation for the projected period; this does not factor in replacement openings.

Replacements: Estimate of job openings resulting from workers retiring or otherwise permanently leaving an occupation. Workers entering an occupation often need training. These replacement needs, added to job openings due to growth, may be used to assess the minimum number of workers who will need to be trained for an occupation.

Total Job Openings (New + Replacements): Sum of projected growth (new jobs) and replacement needs. When an occupation is expected to lose jobs, or retain the current employment level, number of openings will equal replacements.

Typical Education Requirement: represents the typical education level most workers need to enter an occupation.

Typical On-The-Job Training: indicates the typical on-the-job training needed to attain competency in the skills needed in the occupation.
